

No matter where you stand on the issue of
adult marijuana use...

The Science is Clear: Marijuana & Young People DON'T MIX

Here's what you need to know on: **Future Success**

Marijuana changes the pathways in the brains of teens making it harder for them to remember things.⁵

Teens who use marijuana are more likely to do worse in school and to drop out of school than those who do not use marijuana.⁶

For more reasons and what to do about it, check out
